When legions of monstrous creatures, known as Kaiju, started rising from the sea, a war began that would take millions of lives and consume humanity's resources for years on end. To combat the giant Kaiju, a special type of weapon was devised: massive robots, called Jaegers, which are controlled simultaneously by two pilots whose minds are synched via a neural bridge, called "The Drift." But as the enemy grows more powerful with each attack, even the Jaegers are proving nearly defenseless in the face of the relentless Kaiju. On the verge of defeat, the forces defending mankind have no choice but to turn to two unlikely heroes—a washed up former pilot (Charlie Hunnam) and an untested trainee (Rinko Kikuchi)—who are teamed to drive a seemingly obsolete Jaeger. Together, they stand as mankind's last hope against the mounting apocalypse.

The film will be released in 2D and 3D in select theaters and IMAX[®], and will be distributed worldwide by Warner Bros. Pictures, a Warner Bros. Entertainment Company. Rated PG-13 by the MPAA "for sequences of intense sci-fi action and violence throughout, and brief language". In theaters Nationwide on Friday July 12, 2013 pacificrimmovie.com
